History

Farmers Mutual Telephone (FMTc) acquired the old lumber yard in 1988, covered it with white metal sheeting to protect it and had used it for storage until finding a new storage location in 2018.

The building had blended into the background, and many people hadn't seen the inside in years. In the fall of 2018, volunteers cleaned it out.

They strung lights overhead inside, cleaned the floors and walls, set up a heating element and suddenly they had a rustic-looking space for dances, reunions, anniversaries, New Year's Eve parties and other events. We're now taking reservations for your special event.
